

## ARBOR DAY SPORTS

## YESTERDAY A GENERAL HOLIDAY.

Results of the Baseball and Cricket Matches, Rifle Shoot and Races.

Yesterday broke cloudy with a drizzling rain which angered all for those who had built their hopes on a pleasant outing or an interesting day's sport in the city. About noon however the clouds lifted, the sun came out and the afternoon was a splendid day for sport. The rainfall of the morning only helped to lay the dust. Large crowds attended the races and the various sports.

## BASEBALL GAME.

Fort Saskatchewan beat Edmonton in the first game of the season by a score of 5 to 0. The game was a good deal closer than the score would indicate as there were few errors made and both teams played a good clean and strong game, especially for the first of the season.

The failure of the Edmonton team to score was due entirely to the poor pitching that they did, or rather attempted to do and couldn't. It showed clearly lack of practice in this direction and should teach them that the whole game of baseball does not consist in fielding, but depends fully as much on how they are able to handle the stick. However, the boys showed yesterday that they could play ball and if the people of Edmonton patronize them so they can finance their team, there is no doubt but that we shall have a team that can show up well with it not least anything in this section.

Stevens pitched the game for Edmonton, and it was one of the prettiest games ever thrown on Edmonton grounds, while McLachlin of the Fort did equally well. Edmonton had three errors counted up against them, and the Fort had the same number.

The line-up of the two teams was as follows:

Edmonton.	Fort Saskatchewan.
Ball	Ed.
Deaton	Ed.
Hunt	Ed.
Ingle	Ed.
Schenck	Ed.
White	Ed.
Till	Ed.
McGill	Ed.
Stevens	Ed.

Score, Edmonton 0; Fort 5.  
J. Caracadden, umpire.

## RIFLE SHOOT.

It was intended to have an all-day shoot on the range, but owing to the rains of the early morning and the threatening skies, the afternoon only was utilized, when a large number turned out and found light conditions favorable on account of the sky being almost continually overcast, thus keeping the light more even than usual.

Nearly all of the better marksmen were testing new rifles, which associated their adjusting the sights to their satisfaction, so that, making the allowance necessary for this, the top scores are very good and still better may be expected later. About two-thirds of the riflemen present were from Strathcona, a joint shoot being held, but in future each association will keep its own scores.

Applied are the best six scores of each association.

## PURE OBSTRUCTION

## IN THE HOUSE ON THURSDAY.

The Distribution Clause Stood Over—Ingram of East Elgin Attacks Edmonton.

Ottawa, May 11.—Today's discussion in the House may be described as pure obstruction. The Prime Minister presented a copy of the schedule providing for twenty-five local electoral constituencies in Alberta. In distributing the constituencies, the Government, he said, relied on advice from the western members. Mr. Borden thought this work should be done by an independent tribunal. He asked that the clause be allowed to stand until his western friends had time to look into it. On the clause relating to the control of lands there was a prolonged debate with very little reference to the subject at issue. Ingram of East Elgin, pitched into the "foreign voters" of the Edmonton district. Hon. F. Oliver took him to task for abusing the most progressive part of the country and belittling the deliberately expressed opinion of the people of the North-West. Mr. Oliver showed that his majority was not dependent upon the "Foreign Vote." He had a majority of 916 of English-speaking votes.

## THE FATALITY LIST

## OF THE OKLAHOMA TORNADO.

Now Estimated that 175 Perished in the Storm and that 400 Suffered Injuries.

Snyder, Okla., May 13.—The estimates of the total number killed in Snyder and outside the town is 175 with over 400 wounded. A big force of laborers are engaged removing the debris, which is still on fire. The progress of their work has revealed many distressing scenes. For instance, two dead men and two barely living were dug out from a pile of rubbish where they had been entombed since Wednesday.

## REVIVAL MOVEMENT ADVANCING

Winnipeg, May 13th.—The revival movement grows apace. Advice from Fort William indicate that the McMaster university band is averaging 30 conversions nightly. They will be here on May 29th and will pass through to their six months campaign of Alberta immediately. Rousing sermons are promised in Winnipeg tomorrow. Ralph Connor has announced another of his extraordinary homilies on a "Peril of City Life" and several other pastors are following his lead with sensationally titled sermons for tomorrow.

## WANTED.

GOOD AGENTS FOR THE  
Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

## WILLIAM'S LAST RALLY.

William F. McLean M.P., has made another amendment to his celebrated "challenge" and now says he is willing to fight Hon. Thos. Greenway in Lisgar or Walter Scott, M.P., in West Assiniboia. In as much as there has been no rumor of either of these constituencies being opened it does not appear probable that the frisky William will be required to dodge again.

## MORE OF THE SAME KIND.

The Despatch is the name of a paper published in Alameda, N.W.T., which vents its knowledge of Edmonton in this way:—

"The constituency represented by Frank Oliver is in the far North West corner of the Territories. The town of Edmonton is the only place of any importance in it. At least 50 per cent. of the population is non-English-speaking. In a group of nine census enumerators' districts, there are only 469 whites to 1,596 foreign residents. In one sub-division where there were no English-speaking electors, the vote was Oliver 134, Secord 9. Seventy per cent. of the total number of voters are Catholic. This is the constituency that the Government opened in order to get the opinion of the people of the West on the school clause of the Autonomy Bill.

## THE HERALD'S TORTUOUS COURSE.

(Hegina Leader)

Once again the Calgary Herald has flapped, but the public has become so accustomed to its idiosyncrasies that its course now occasions little surprise, although some persons who like to investigate and dissect phenomena are hard to express their wonder. So completely does the Herald contradict and repudiate today the policy advocated yesterday that some people have come to the conclusion that it has two editorial heads, the one at war with the other.

Recently the star features of the Herald's policy has been ringing declaration in opposition to federal party politics in the legislature of Alberta. The sincerity of the Herald in adopting this attitude was called in question in many quarters and the fact that it was not sincere the Herald now boldly proclaims. So strongly partisan is the Herald that when the people of Calgary, irrespective of party politics, decided to tender a complimentary banquet to their former member, who had been honored by being chosen Minister of the Interior, that paper denounced the banquet as a Grit dodge and warned all Conservatives to stay away from it; this despite the fact that two of the most prominent Conservatives in Calgary were the prime movers in arranging the banquet. The people of Calgary had apparently taken the Herald at its own valuation as a patriotic provincial paper and not a rabid partisan organ and doubtless were amazed when it threw them down and denounced them—and itself.

The public would naturally suppose that there was some very strong reason for the complete reversal of policy by the Herald. On the contrary the reason is found in another flap. The Herald after accepting the amended school clauses as being satisfactory to the West objected to the Oliver banquet because the Ottawa Government had directed a "ministerial conspiracy" at the liberation of the new provinces, and because of "the position Mr. Oliver occupies in that plot." It goes out of its way to repeat the falsehoods now abandoned by the Opposition press generally that the Government's policy is dictated by high dignitaries of the Roman Catholic church.

The banquet was held notwithstanding the Herald's outbreak and was attended by many Conservatives. It was what it purported to be—a non-party demonstration in honor of one of Alberta's sons who had been elevated to a high and responsible position. By the next day the Herald belittled it because it was not made the occasion of discussion of questions on which the two great parties are at variance.

What the Herald will do next is a matter of the wildest conjecture.

## The Canadian North-West Homestead Regulations.

Any even numbered section of Dominion lands in Manitoba or the Northwest Territories, excepting 8 and 28, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, or 160 acres, more or less.

ENTRY.—Entry may be made personally in the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith under one of the following plans.

(1) At least six months' residence upon cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) or any person who is eligible to make a homestead entry under the conditions of the Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land

owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3 or 4, must cultivate 30 acres of his homestead, or substitute 20 head of stock, with building for their accommodation, and have besides 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1889.

Every homesteader who fails to comply with the requirements of the homestead law, is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Land Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

W. W. CORY,

Deputy Minister of the Interior,

N. B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable land are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

## MUNICIPAL MATTERS.

The public meeting on Monday evening was the first result of a clause in the city charter providing that on petition from thirty or more electors the mayor of the city shall call a public meeting for the discussion of civic affairs.

The meeting was notable as being the most largely attended civic gathering for considerable time. It has been the rule rather than the exception, that meetings of this kind, even when the topics of discussion were more immediately pressing, if not more important, have been poorly attended. Whether due to the nature of the questions likely to be discussed, to the manner and circumstances of calling the meeting, or to the increasing public interest in things municipal, the hall was filled by a thoroughly representative audience, which showed a deep interest in the proceedings and a readiness to pronounce upon them by free and frequent expressions of approval or disapproval.

There was no fixed program for the evening and the discussion was somewhat on the free-for-all order. This may have facilitated or impeded profitable discussion, but under the circumstances other arrangement was scarcely possible, unless the petitioners had stipulated what particular questions they wished expounded.

That such was not done may have been due to the fact that while a degree of direct opposition to the course of the council on some matters, was manifested, the prevailing desire of the audience seemed to be for light on municipal affairs generally. The public appeared to want information rather than disputation; fact rather than argument. When such was given it was received, not always with approval, but generally with gratification.

While the discussion enjoyed a considerable range, it centered chiefly about the appointment of the chief of police, the tenders for lumber and other matters with which the commissioners were intimately associated or for which they were particularly responsible. In a general way it may be said to have been the desire of the commissioners rather than the policy of the council which was under fire. That such was the case does not argue well for the future of the commission mode of city government, especially as two of the aldermen at least took occasion to express their disappointment with the working of the system.

## ALBERTA CROPS.

Calgary, May 10.—Gen. Supt. Jamieson of the C. P. R. has compiled the following information with reference to weather conditions and seeding operations as regards crops in western division week ending May 6th, 1906.

Crowsfoot—Weather fine; seeding

completed; prospects good for large crop.

Cardston—Weather—favorable; seeding almost done.

Disbury—Weather warm and dry; seeding all done; crops looking fine.

Olds—Weather fine and warm; seeding practically all completed; farmers busy in breaking new ground for fall wheat; the average in this respect will be very large.

Bowden—Weather favorable; seeding almost completed; some of the grain up three inches and looking fine; light fall of snow last week; no rain.

Immerville—Weather favorable; about ninety per cent. seeding done; one hour's rain during week.

Penhold—Weather dry and warm; seeding and sowing completed; prospects good.

Red Deer—Weather fine and warm; estimated 85 or 90 per cent. seeding done.

Lacombe—Weather warm and dry; crop practically all sown and doing well.

Ponoka—Weather fine and warm; about 95 per cent. seeding done and crop doing well.

Wetaskiwin—Weather fine and warm; seeding general; about 85 per cent. seeding done.

Leduc—Weather clear and dry; seeding completed; wheat and oats up one to two inches.

Strathcona—Weather very fine; about 95 per cent. seeding now completed.

Okeoka—Weather favorable; seeding and sowing completed; fall wheat looking splendid.

High River—Weather favorable; seeding and sowing all completed; fall wheat looking very well.

Nanton—Weather favorable; all seeding done; fall wheat about three inches in height.

Clareholm—Weather favorable; all wheat and about 80 per cent. oats and barley sown; estimated about 45,000 acres.

Staveland—Weather favorable; all seeding finished; grain growing well; no breaking being done at present; no rain since last report.

Leaving—Weather favorable; about 95 per cent. seeding done; about 1,000 acres prepared and sown during week.

Medford—Weather fine and dry; seeding completed; grain above ground in good many cases and looks well.

Tabor—Weather warm and dry; oats still being sown, and growing still being done with view of further seeding for next week or ten days; crops looking well.

Lethbridge—Weather mild; seeding progressing favorably and crop growing well; no rain.

Picher—Weather favorable; wheat doing fine; oats 90 per cent. sown.

Cowley—Weather moderate; 90 per cent. seeding and sowing completed; 2,500 acres now in

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of 10 cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—Persons of sufficient years and over and joint stock companies holding "the miners' certificate" may obtain entry for mining locations. A free miner's certificate is granted for one or more years not exceeding five, upon payment in advance of \$750 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the hole or vein. The claim may be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.63.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof.

When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres. The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or beach, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank but not exceeding 1,000 feet. Where claim power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two claims of five miles each for a term of twenty years,

renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bar of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 250 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days if the claim is within ten miles of a mining recorder's office. One extra day allowed for each additional ten miles or fraction. The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase and free miners may work their claims in partnership by filing notice and paying fee of \$200. A claim may be

abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant on his agent; is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted. A rental of \$100 for each mile of frontage and royalty at the rate of two and one-half per cent, of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$5,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unopened land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the North-West Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospected an area of 640 acres. Should the prospectors satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

Department of Interior, Ottawa, September, 1904.

## THE NEWS OF TO-DAY

## IN CONDENSED DESPATCHES.

Brief items from many sources tell the story of the day's events.

## LOOKING FOR POINTERS

Montreal, May 13th.—Earl Grey and Sir Frederick Borden left tonight on a visit to the U.S. Military academy at West Point.

## BRAKEMAN CRUSHED

Winnipeg, May 12th.—A brakeman named J. A. McWaters was killed in the C. N. R. yards here today, being crushed between two cabooses. He had only been west a year and originally came from Ottawa. He was 21 years of age and unmarried.

## LETHBRIDGE A RAILWAY CENTRE

Lethbridge, May 13th.—The by-law granting exemption to the C. P. R. for twenty years on condition that the company make Lethbridge a divisional point, establishing shops and round houses here, within fifteen months, passed without a dissenting vote.

## JUDGE BAIN DEAD

Winnipeg, May 13th.—Mr. Justice Bain, puisne Judge of the King's bench, Manitoba, died in Montreal today. The trustees of Manitoba University, the Hospital Board, Law Courts, and all public institutions with which he was prominently connected passed resolutions of regret.

## WILL DECORATE THE GRAVES

Winnipeg, May 13th.—The Winnipeg Garrison, horse foot and gunners will parade on Sunday to decorate the graves of the comrades who fell in battle, especially those of 1885. They will be accompanied by the Veterans and Rifle Associations and boys brigades. It will be the parade of this year.

## A PLEA FOR AMITY

Winnipeg, May 13th.—University Degrees were conferred at the Convocation in the Winnipeg Theatre last evening before a most brilliant assemblage, the Lieutenant-Governor and an imposing array of dignitaries being present. A remarkable speech was delivered by President Murrell of the North Dakota University in which he made an eloquent plea for the common amity of the west of these two great English speaking nations. He adjured them by the memories of those who try in Westminster Abbey to follow the lofty ideals set up by the forefathers of the race.

## CLAUSES PASSED YESTERDAY.

Ottawa, May 13. The House of Commons only sat three hours yesterday. Clause 21 of the Autonomy Bill providing that the assets of the North-West Territories be equally divided between the two new provinces was adopted; clause 15 providing for keeping intact the law courts maintaining diplomas and licenses of professions until the new legislatures can deal with them also the joint stock company charters which will remain subject to legislation by the province in which the head office is situated when the bill is adopted. This disposed of all except the clauses which were allowed to stand over until next week. Hon. S. Fisher's live stock records bill was read a third time.

## DIED.

Spratt.—At Edmonton, on Tuesday, May 9, Evelyn Elise Devereux, the darling child of H. B. and E. M. Spratt, aged ten months.

Baird.—At Clover Bar, on Thursday, May 11, John Burns Baird, aged 5 years 8 months, eldest son of Archibald Baird, rancher, Clover Bar.

### G.T.P. CONSTRUCTION

ONLY AWAITS GOVERNMENT  
SANCTION.

President of the G.T.P. Enthusiastic  
Over the Prospects of the New  
Transcontinental.

Montreal, May 13. — Sir Charles Rivers-Wilson, president of the G.T.P. arrived today on his tour of inspection of the company's system. He said "Work on the G.T.P. begins just as soon as the specifications are adopted by the government, and at once no time will be lost bringing it to completion. We have all the money we require and there will be no delay in starting." Referring to the prospects of the road from a financial standpoint, Sir Charles said: "Look at the marvelous success of the G.T.P. R. and we are entering the country under more advantageous circumstances, for the G.T.P. R. has its rails in a vast wilderness. I believe that I will live to see the new road a magnificent success."

### JUNIOR BASEBALL CLUB.

At a meeting held Wednesday evening in the Richelieu hotel, the junior baseball club was organized for the season. The team will appear in uniform shortly. Practice will be held every Tuesday and Thursday evening on the Hudson Bay Grounds until further arrangements have been made. The line-up for the season and the election of captain is as follows: The list of officers and patrons installed:—Hon. Pres., Mr. A. F. Carnegie. President, Mr. J. N. Powerhouse. Manager, Mr. L. E. Knott. Sec. Treas., Mr. J. E. Knott. Patrons, Mr. H. W. B. Douglas and Mr. E. Raymer.

### ADVERTISING LACOMBE.

The Lacombe board of trade have issued a very attractive illustrated pamphlet advertising the resources of their town and district. The booklet is well printed and contains many splendid scenes in the town and tributary country, together with a carefully prepared "write-up." A map of the district accompanies the pamphlet which should prove very useful in bringing the knowledge of this enterprising town before the outside world.

### ARBOR DAY SPORTS

Continued from page one

### RACES.

There was a large crowd present at the races yesterday afternoon and some very good events were pulled off. A mistake was made in announcing that admission would be charged for such was not done. The band was in attendance and played some very good music.

Following are the different events: 1. Named race for special prizes.

Little Fred; first—Prize Cup, donated by A. Bruce Powley.

Cardier; second—Prize cigars, donated by Garfield and Lessard.

Billy Parlow, didn't start. Pretoria, didn't start.

2. Three minute events.

Black Boss, won two straight heats.

Minnie Bull, second place.

3. 1-4 mile pony run.

Pinto, first—Prize tobacco cup donated by Revillon Bros.

There were five other entries in this race.

4. Free for all.

Mambrino Gift; first prize—Sulky donated by the club.

Dan Patchem; second prize; harness by the club.

5. 1-4 mile open run.

The entrance fee for this race was \$1. winner to take the money, and a hamper donated by The Tent and Mattress Co.

6. Exhibition mile.

Sport; first place.

CRICKET.

Edmonton won from Fort Saskatchewan yesterday in the cricket match held on the exhibition grounds by a score of 126 to 121.

### Every Creation of the Chafing Dish

is all the better for a small quantity of Armour's Extract of Beef. The rich beefy flavor is an additional relish. You can't imagine how these dainties are improved, until you try Armour's Beef Extract at your own chafing dish supper. Our Cook book, "Chafing Wrinkles" mailed free.

"PERRIN"  
Juvenile  
KID GLOVES

Made in all sizes and to fit all hands. Not merely reduced sizes of adult Gloves, but cut specially to fit the hands of children from one year old and upwards—Be sure to ask for PERRIN KID GLOVES.

HAROLD JARVIS.

Harold Jarvis, assisted by local talent, sang to a large and very appreciative audience in the rink last evening. Mr. Jarvis has been singing before the public for a good many years and possesses a voice of remarkable quality and compass. He sang all of his numbers in splendid voice and in every instance received a hearty encore. The singing of Miss Ethel Webster was also very good and much appreciated by all present, as was the piano duet of Mrs. and Miss Crawford.

## We Paid \$100,000

For Ligozone, Yet We Give You a 50c. Bottle Free.

We paid \$100,000 for the American rights to Ligozone; the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others. We cured all kinds of germ disease with it—thousands of the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Test it as we did; see what it does. Then you will use it always, as we do, and as millions of others do. You will use it, not only to get well, but to keep well. And it will save nearly all of your sickness.

### Kills Inside Germs.

Ligozone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring expensive apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Ligozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Ligozone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Ligozone its worth to humanity. And that worth is so great that we have spent over one million dollars to supply the first bottle free to each sick one we learned of.

### Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Ligozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Any disease that begins with fever—ill feeling, loss of appetite, all conditions common to the results of germ or poisonous blood. In nervous debility, Ligozone acts with wonderful speed, accomplishing what no drugs can do.

Fever—ill feeling, loss of appetite, all conditions common to the results of germ or poisonous blood. In nervous debility, Ligozone acts with wonderful speed, accomplishing what no drugs can do.

### 50c. Bottle Free.

If you need Ligozone, and have never tried it, please send us this coupon. We will then mail you a 50c. bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Ligozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Ligozone costs 50c. and 81.

CUT OUT THIS COUPON

For this offer we will accept again. Fill in the blanks and mail it to The Ligozone Company, 22-24 Welsh Ave., Chicago.

My disease is:

I have never tried Ligozone, but I will accept the 50c. bottle free if I can.

L. G. PICARD, Proprietor.

### Railway Assistance to Agriculture.

Ottawa, May 12th, 1905

Next to the Government of the country there are probably no corporate interests so much interested in the country's prosperity and development as the transportation companies and especially is this true when these companies hold large land grants.

An investigation of the development policy of over eighty of the more important railways reveals the fact that a great deal of quiet and effective work for the encouragement of agriculture and stock raising is being done by most of these great corporations.

Nearly all the roads are active in securing immigration for their territory and in locating industrial enterprises. To this end they either have a special industrial commissioner or some one of their general officers gives his attention to the subject and when it comes to the encouragement of agriculture the following are the figures:

25 railways give better assistance to the marketing of products grown along their lines.

8 railways employ special agricultural agents.

31 railways co-operate with the State colleges and experiment stations in aiding agricultural education.

12 railways encourage seed improvement.

10 railways promote agricultural conventions.

6 railways run special educational trains.

2 railways introduce pure-bred stock.

5 railways own demonstration farms.

9 railways print and distribute bulletins.

2 railways run a pick-up car service.

6 railways give special rates to encourage stock raising.

4 railways subscribe for and distribute agricultural papers.

Such is the record of the railways of the United States. Our Canadian railways have, as everyone knows, done an immense amount of advertising for Canada and some of them have done much to assist in practical agriculture.

### LOCAL.

A meeting of the council of L.I.D. 27-S-4 will be held in the city hall Saturday next at 2 p.m.

The full schedule of the Alberta Provincial constituencies will appear in Monday's Bulletin.

The Winnipeg Free Press announces that the C.P.R. will establish a regular passenger service between Winnipeg and Battleford in June.

Fraser Bros. of Strathcona have just finished building a new grain warehouse 32 feet by 32 feet for the Alberta Grain Co. at Wetaskiwin. The warehouse is in connection with that company's new elevator at that point.

The firm of Wilkin & Co., now of Strathcona have decided to move to Fort Saskatchewan and open up business in that town. The new premises will be finished ready for occupation on July 1st when the firm will take possession.

J. W. Sheta M.L.A. for Victoria, has received the following letter from H. V. Bulger, commissioner of public works, Regina:—"In reply to yours of the 17th I beg to say that we received on the 13 instant the final plans and specifications from the Canadian Northern Railway people and on the same date we wrote them, authorizing them to order the combined bridge. The amount to be contributed by the new province will be \$50,000.00, the extra amount being for strengthening the floor joists, which Mr. Sheta thought was necessary in order to stand the weight of the heavy threshing outfits that may cross the bridge from time to time."

Regina Leader:—The by-law to provide for the raising of \$100,000 for the completion of the waterworks, sewerage and electric lighting system was voted on last Thursday and endorsed by the citizens by a vote of 160 in favor of it and only 4 against it. The city council has therefore, practically an unanimous endorsement by the citizens to complete the work so successfully inaugurated last summer. In order to pass it was required that two-thirds of the aggregated number of votes cast should be in favor of the by-law.

**The American Exodus.**

Collier's Weekly has recently been paying a great deal of attention to the movement of the cream of the farming population of the mid-western States into the Canadian west. In its current issue Collier's has the following article by Broughton Brundenburg. It will be generally recognized on this side of the border that it is the best tribute paid in many a day to the work of the Immigration Department:

"Not content with having precipitated upon us a grave trouble in the enormous immigration from Europe and Asia to our eastern and western shores, with borders of Japanese threatening to come," says Mr. Brundenburg, "the gods of Progress and Change now have treacherous our walls to the northward, and the first rush of what is destined to be a mighty legion is pouring from the United States into Western Canada. It is wholly an artificially directed movement, the work of the Canadian Government, the Canadian railroads, and the Canadian land speculators. Sound economic principles, however, underlie the superficial causes that have sent the tens of thousands on the move. It is now too late to deflect the current, and all that is left for the good Americans who have been asleep in to wake up to inquiry into the mixed good and evil that shall result; then, if possible, harness the one and nolly the other.

"Twelve years ago Eric Swenson, a Swede farmer, with a family of four sons, having lost his farm in the hard times of 1893, left Fertile, Minnesota, and trekked across the border into Manitoba to see what he could find. Near Altamont, on the line of the Canadian Pacific, he found a section of what appeared to him to be very fine wheat land, and, making inquiry, he was told that he could 'homestead' a quarter of a section of it for himself, and a quarter for each of his sons, by going to the land agent's office in Winnipeg. This he did, and he and his family entered into the possession of seven hundred acres of land at a total cost of \$52.26. The next fall he harvested the finest crop of wheat he had ever seen, of a quality better than he had grown in Dakota, and his market was just as accessible. His wife went back to Fertile to visit a sister that winter, and when she came home to Altamont, eight other families came with her. This little story presents the simple workings of the aforementioned economic principles.

Intelligence of good farm land does not fly like the tidings of a gold strike, however, and these principles if let alone, would have been a long time in peopling the great Canadian Northwest. In the past two or three years the interested parties—the Canadian Government, the speculators, and the railroads—have been planning a great campaign of concerted action, which, despite the fact that so little has been heard of it is now in full blast. Where a few years ago we lost good citizens by the hundreds by migration over our borders, we are about to lose them by the hundreds thousand, and I do not hesitate to say, from examinations I have made of numbers of parties either on route or about to depart, that they are the very best stock from our settled rural communities. It is a leak at the top, and not at the bottom.

"Of course, it is unfortunate that the tens of thousands of desirable citizens who have left the country to better their condition, could not have found this betterment by going on west in the United States to equally good lands, which, thanks to the 'exquisite operations of our political system, are not now open to homesteading, as they have been robbed under the nose of a complacent Government of what was rightfully theirs. They cannot be blamed if the pictures look better under the British flag. However, the indications are that they are carrying their Americanism with them, and in the environment of the free sweep of the northwestern prairies they are not likely to lose it. Some day, not too far distant to be interesting now, there will be a crisis in Canada in which the will of the hundreds of thousands of American citizens there will be a potent factor. I am convinced from a reading of the signs already plainly displayed, that they will not cast their lot with those who wish annexation to the United States.

"The greatest evil is the loss of blood our body politic is sustaining and must sustain. Some of the points of good are the increased use and market for American agricultural machinery, American-made clothes, books, food-stuffs, etc. The greater their prosperity the greater their purchasing power, which is gratifying to contemplate when it is remembered that the market is secured in advance, and the Americans in the west of Canada are likely to dominate the trade preferences of the mixed European immigrants that they, too, will conform to the American standard and style of living.

# Don't Travel

## Telephone

### The Bell Telephone Co.'s

LONG DISTANCE LINE SYSTEM, reaches every business man through their numerous Toll Offices and Exchanges between Edmonton and Calgary.

THE planter from whom I buy my tobacco in Cuba are the most expert tobacco growers in the world. They keep the plant nipped back carefully—free from suckers and only leaves enough on the plant for it to properly mature and nourish.

In this way the good of the tobacco—the proper qualities to make it excellent smoking, are evenly distributed all through the plant. Thus the leaf I secure for my Pharaoh filler is perfect—an even smoker—palatable and delicately odorous.

J. BRUCE PAYNE, Limited, Granby, P.Q.

For the rest I use a binder a Connecticut broadleaf, the highest grade and most costly binder grown—and as a wrapper I import direct from Holland a genuine clear leaf Sumatra—the finest wrapper in the world.—J.B.P.

None genuine unless branded PHA-RO

J. B. Mercer, Distributor, Edmonton, N.W.T.

## ASTONISHED THE DOCTOR.

Mrs. Eaton Recovering. Although Her Physician said She Might Drop Dead at any time.

Mrs. ROBERT EATON.

"The Doctor told me I had heart disease and was liable to drop on the street at any time," says Mrs. Robert Eaton, of Dufferin, Ont.

"My trouble began four years ago with a weak heart. I was often afraid to draw my breath, it pained me. I was bothered with nervousness, dizziness, loss of appetite, smothering and sinking spells, and I could not sleep. 'Sometimes a great weakness would seize me and I would have to lie down to keep from falling. My hands and feet would seem to go to sleep and a sort of numbness would come all over me and perhaps, immediately after the blood would rush to my head and a series of hot flashes would envelop me.

"I took all kinds of medicines, but kept gradually growing worse until about eight weeks ago, when I began using Dr. Leonard's Anti-Pill. From the first I improved until now my appetite has returned, I can sleep well, and have no nervousness, dizziness, palpitation, faintness or any of my other troubles. They have all entirely disappeared. I feel much stronger, look better, and altogether Anti-Pill has made a new woman of me.

"I am entirely cured and cannot say too much for this wonderful remedy. I would not so lightly recommend Anti-Pill to anyone suffering as I did."

Conveniences:—Waterworks, sewer system, telephone system, electric lighting system, all owned and operated by the city.

Board of Trade:—President, A. B. Campbell, Vice-President, A. T. Cushing, Secretary, F. T. Fisher.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 10.50. Arrives from Strathcona 9.15 and 10.50.

## LOCAL

—Train on time.

—Yesterday was observed as a general holiday in the city, business houses being closed.

—The next practice of the Choral Society will be held in Alberta College on Thursday, May 18th at 8 o'clock sharp. A full attendance of the members is requested.

—A general meeting of Edmonton Operative Society will be held in All Saints school room on Monday evening at 8 o'clock. All members are requested to attend.

—The city band very kindly furnished music to the people who assembled at the ball game yesterday. This organization has improved greatly during the past few months and is a credit to the city.

—A fine bunch of shorthorn and hereford thoroughbred cattle were shipped to Calgary today by Messrs. English and Tough. These cattle will be at the large cattle fair which is to be held in Calgary this coming week.

—The Choral Society will repeat the "Redemption" music, which was given so successfully last December, on May 20th in the Presbyterian church. The success of the society was so pronounced at the last concert that the citizens may look forward to a treat. Admission 50c.

—The secretary of the Public Hospital is in receipt of a cheque for \$25, from A. B. Bennett, secretary of the S.O.E.H. Society, in which he states that it is the first instalment of the amount donated to the funds of the hospital. The Sons of England have the hearty thanks of the board.

—Fort Saskatchewan Reporter:—The annual District meeting of the Vermilion River District, Methodist Church, meets at Fort Saskatchewan on Friday and Saturday, May 19 and 20. Quite a number of ministers and laymen are expected to be present. On Friday evening a public meeting will be held. Addresses will be given by Dr. Lawford, and Rev. A. B. Argue. Rev. R. B. Steinhaur will sing. On Saturday, May 21st, services will be held both morning and evening.

—Regina Standard:—Appropos of the resolution of the board of trade, requesting that the city bore for natural gas, it will be remembered that when a well was being sunk for Geo. Cook at his new house on Albert Street, a seam of coal was struck. When about 56 feet down the men struck a layer of fine coal, and for the next ten feet were constantly digging at it. The coal was of a thin slab formation, and for the most part was very fine. The largest piece found was some seven pounds in weight. Mr. Cook took some of the coal home and tested it. The result was a bright fire such as is given from the coal found in the Esplanade mines. Though no gas was struck in the well, Mr. Cook believes that the finding of this coal is a good indication that the natural gas might be struck by going deeper.

## PERSONAL

G. H. McAvoy came up with the ball team from the Fort yesterday.

J. W. Shera M.L.A., was up from the Fort yesterday.

W. H. Cooper went down to Lacombe today.

H. J. Dawson returned from the south last evening.

J. D. Hyndman returned from a trip down the line last night.

W. J. O. Pouchler returned from Lacombe yesterday.

Miss Bros. returned to the city yesterday from visiting points along the C. & E.

Father Ledue who left for the east a few days since found it unnecessary to go farther than Lethbridge where an operation was performed for an affection of the throat from which the aged missionary has suffered for some time.

## Grand

Spring Opening

Our new stock is now complete in all lines. By buying directly from manufacturers we can confidently compare prices with any house in Canada, mail order or otherwise. Why send away money when you can see the goods before you buy? Bring along your catalogues and satisfy yourself.

We sell only for cash; this enables us to buy for cash, which certainly places us in a position to outsell all competitors, who still stick to the credit system. Our store has been re-modelled throughout, better lighted, and selling facilities increased in every way. We make it a point to look after the convenience of customers. All parcels will be delivered at once, or, if you live in the country, the goods will be carefully packed so that they can travel any distance.

We handle the Salem shirt for men. The patterns and styles are elegant. If you want to see the newest out see these.

We also sell the Salem and Victor shirtwaists for ladies. They are all full sizes and the fit is perfect.

See our ladies' skirts before you buy elsewhere.

The highest prices paid for potatoes, butter and eggs.
